Pixel Perfect, Nothing's Wrong With Me- Cd Versi

You might find me just a little strange
I like dancing barefoot in the pouring rain
My mind is racing at the speed of light
I'll dance around you like a sattelite
I'm reckless, you're speechless

Scream, shout
I love it loud
I feel the need to stand out in a crowd
Nothing's wrong with me
(Nothing's wrong with)
Freak out
I stand my ground
Nothing in the world is gunna keep me down
Nothing's wrong with me

I say some things that may not come out right
I say them loud and proud and impolite
Don't try to analize or be profound
Cuz life's to short to be to tightly wound

Scream, shout
I love it loud
I feel the need to stand out in a crowd
Nothing's wrong with me
(Nothing's wrong with me)
Freak out
I stand my ground
Nothing in the world is gunna keep me down
Nothing's wrong with me

I can smile and I can let it be
Cuz I know nothing's wrong with me
If you ask about my attitude
I'll say
"C'mon, just get a clue"

Scream, shout
I love it loud
I feel the need to stand out in a crowd
Nothing's wrong with me
(Nothing's wrong with)
Freak out
I stand my ground
Nothing in the world is gunna keep me down
Nothing's wrong with me
Nothing's wrong with me

Nothing's wrong with me
Nothing's wrong with me
Nothing's wrong with me
