

Pixies, Human Crime

I'm sorry I missed you
I was already gone
No goodbye kiss
No one fought me to leave home

Into the blue skies
Takes me far away

Don't you be unkind
It's a human crime
Don't be so blind
It'll come back to you sometime

Went by your place
There was nobody there
At the cocktail lounge
Someone else was in your chair

No even the sunshine feels like misery
Even the blue skies are falling down on me

Don't you be unkind
It's a human crime
Don't be so blind
It'll come back to you sometime

Don't you be unkind
It's a human crime
Don't be so blind
It'll come back to you sometime
