

Pixies, Into The White

There ain't no day
And there ain't no night
And there ain't no day
And there ain't no night
And there ain't no day
And there ain't no night

Into the white [3x]

Do you hear what I say?
Do you hear what I say?
Deeper than your sleepy head
Deeper than your sleepy head
Ain't nothin' to see
Ain't nothin' in sight

Into the white [3x]

Go and you'll go real far
Go and you'll go real far
Just past the big quasar
Just past the big quasar
Can't hitch a meteorite
Can't hitch a meteorite

Into the white [13x]
