PJ Harvey, Working For The Man

In the night I look for love Get my strength from the man above God of piston, god of steel God is here behind the wheel I'm just working For the man Pretty things get in my car Take them flying, it's not far Take in handsome, take in me Look good in my steel machine I'm just working For the man Don't you know yet who I am? Working harder for the man Go around I'm doing good Get my strength from the man above I'm just working For the man I'm just doing What I can Go around I'm doing good Go around I'm doing good
