## Place Of Skulls, Neverdie

I spent my time dying hard With no satisfaction in my heart I pushed and I shoved until I cracked Now He lives in me and I won't turn back.

Ride on, follow the Son Never die, life's just begun Don't hand me your deceiving lies He is the Father and Son

Lay Your hands upon my chest Make my heart beat hard like piston heads I know where I'm going, He knows who I am It's written in blood, truth never ends.
