

Place Vendome, Place Vendome

Take a look deep in my eyes
More than a feeling - I call it pride when I know
There's a chance and I've got to take it

And I don't mind a bruise, yeah yeah
Baby I've got nothing to lose
It's only a crazy game

So I try, alone to make it
But it's good to know that you're still waiting
Right outside the door

Hanging out on my way tonight into a fortress made of stone
To a place I've never felt alone, cause I know you'll be there
Hanging out on my way tonight just like a king upon a throne
So just hold my hand and I'll show you my second home...
Down at the Place Vendome

On the streets I feel so free
I'm walking miles without misery and I know
That it's you that keeps me going

It's like a pleasure ride
Turning round and around,
Takes me up takes me down inside
Oh it's such a crazy, crazy time

And I try, so hard to make it
But it's good to know that you're still waiting
Right outside the door, yeah-yeah!

Hanging out on my way tonight into a fortress made of stone
To a place I've never felt alone, cause I know you'll be there
Hanging out on my way tonight just like a king upon a throne
So just hold my hand and I'll show you my second home...
Into the Place Vendome

Every time we meet I have to laugh out loud
Though people often frown upon my smile
I just nod to them and listen to the city sounds
Then I raise my head and sing like no one's around
Oh, like there's no one around

Hanging out on my way tonight into a fortress made of stone
To a place I've never felt alone, cause I know you'll be there
Hanging out on my way tonight just like a king upon a throne
So just hold my hand and I'll show you my second home...
Down at the Place Vendome

Hanging out on my way tonight into a fortress made of stone
To a place I've never felt alone, I've never felt alone
Hanging out on my way tonight just like a king upon a throne
So just hold my hand and I'll show you my second home...
Down at the Place Vendome
