

Place Vendome, Right Here

[by Michael Kiske]

You better now close your eyes
We're traveling deep inside
You face your real emotions
To get through to the other side
I wonder now how you survive
With all these feelings that you always hide
Tell me just a reason, I won't run away
We don't look back for yesterday
Right here and right now,
There's no way out we're talking soul to soul
Right here and right now,
We're standing face to face
Take me by the hand and we're flying
Until the end of time
Cuz right here and right now,
We're talking soul to soul
There ain't no pill for cure
It's the devil that your' fighting for
You're waiting for release
But it ain't easy to live in peace
You can't start a fire without a spark
Waiting for light in the dark
Right here and right now,
There's no way out we're talking soul to soul
Right here and right now,
We're standing face to face
Take me by the hand and we're flying
Until the end of time
Cuz right here and right now,
We're talking soul to soul
Do you believe in more than just words?
Do you believe in heart and soul?
You see the sun is shining
By the moment you decide to see it again
See it again, just see it again.
Right here and right now,
There's no way out we're talking soul to soul
Right here and right now,
Don't break my heart again...
Right here and right now,
There's no way out we're talking soul to soul
Right here and right now,
We're standing face to face
Take me by the hand and we're flying
Until the end of time
Cuz right here and right now,
We're talking soul to soul
You and I let us fly, all around the world
You and I going flying
To the end of the world, to the end of the world
Right here and right now...
