

# Placebo, Haemoglobin

I was hanging from a tree  
Unaccustomed to such violence  
Jesus looking down on me  
I'm prepared for one big silence

How'd I ever end up here  
Must be through some lack of kindness  
And it seemed to dawn on me  
Haemoglobin is the key

Haemoglobin is the key  
To a healthy heart beat  
Haemoglobin is the key  
To a healthy heart beat

At the time they cut me free  
I was brimming with defiance  
Doctors looking down on me  
Breaking every law of science  
How'd I ever end up here?  
A latent strain of color blindness  
Then it seemed to dawn on me  
Haemoglobin is the key

Haemoglobin is the key  
To a healthy heart beat [x4]

Now my feet don't touch the ground  
Now my feet don't touch the ground  
Now my feet don't touch the ground  
Now my feet don't touch the ground

As they drag me to my feet  
I was filled with incoherence  
Theories of conspiracy  
The whole world wants my disappearance  
I'll go fighting nail and teeth  
You've never seen such perseverance  
Gonna make you scared of me  
Cause haemoglobin is the key

Haemoglobin is the key  
To a healthy heart beat [x4]

Now my feet don't touch the ground [x8]
