

# Placebo, Loud Like Love

Love on an atom,  
Love on a cloud,  
To see the birth of all that isn't now  
Can you imagine a love that is so proud?  
It never has to question why or how  
So I'd abandon the love in my dreams  
When I wake up I'm soaking in my sheets

Breathe /2x  
Believe /4x

For all of our youth  
We have craved them  
Their beauty and their truth

Breathe /4x  
Believe /4x  
Breathe /4x  
Believe /4x

That we are Loud Like

Love on an atom,  
Love on a cloud,  
To see the birth of all that isn't now  
Can you imagine a love that is so proud?  
It never has to question why or how

For all of our youth  
We have craved them  
Their beauty and their truth  
So we name them  
And somehow they pull us through  
We have craved them  
For all of our youth

Breathe /4x  
Believe /4x

We are Loud Like Love /10x
