

Placebo, Post Blue

It's in the water baby,
It's in the pills that bring you down,
It's in the water baby,
It's in your bag of golden brown,
It's in the water baby,
It's in your frequency,
It's in the water baby,
It's between you and me.

It's in the water baby,
It's in the pills that pick you up,
It's in the water baby,
It's in the special way we fuck,
It's in the water baby,
It's in your family tree,
It's in the water baby,
It's between you and me.

Bite the hand that feeds,
Tap the vein that bleeds
Down on my bended knees..

I'd break the back of love for you,
I'd break the back of love for you,
I'd break the back of love for you,
I'd break the back of love for you.

It's in the water baby,
It's in the pills that bring you down,
It's in the water baby,
It's in your bag of golden brown,
It's in the water baby,
It's in your frequency,
It's in the water baby,
It's between you and me.

Bite the hand that feeds,
Tap the vein that bleeds
Down on my bended knees.

I'd break the back of love for you,
I'd break the back of love for you,
I'd break the back of love for you,
I'd break the back of love for you,
I'd break the back of love for you,
I'd break the back of love for you,
I'd break the back of love for you,
I'd break the back of love for you.
