

Placebo, Something Rotten

It seems we're here I
Miss you something rotten
The stinks are here
It's guaranteed all's forgotten
Down here
Down here it's clear that your uncut
Don't fear
Don't fear, keep all this forgotten
Face down
Face down
Face down, I miss you something rotten
Face down
Face down, this crown is broken rotten

Down here, down here, I know its not, it's all forgotten
Down here, down here, face down, I miss you something rotten
Down here, down here, it stinks, it stinks of something rotten
Don't fear, don't fear, keep all this forgotten
There's something rotten down here
There's something rotten down here
There's something rotten down here
There's something rotten down here...
