

Plain White T's, Boomerang

The fire was out
But then the phone rang
And all of the heat came back again
As much as I try
You're hard to resist
All that it takes is just one kiss

And I'm putty in your hands
I'm under your spell
You send me spinning

You pull me in close
You throw me away
I keep coming back like a boomerang
You tell me to go
You beg me to stay
I keep coming back like a boomerang
Around, around, around, and back again
Around, around, around, and back again

You treated me like I'm your little toy
You tell me I'm not like other boys
The next thing I know
You toss me aside
You don't even bother with goodbyes

But when you say hello
I can't ignore you
You send me spinning

You pull me in close
You throw me away
I keep coming back like a boomerang
You tell me to go
You beg me to stay
I keep coming back like a boomerang
Around, around, around, and back again
Around, around, around, and back again

(Boom, boom, boom)
And now my heart is racing
(Boom, boom, boom)
And after you I'm chasing
(Boom, boom, boom)
You gotta catch me when I fall
You send me spinning

You pull me in close
You throw me away
I keep coming back like a boomerang
You tell me to go
You beg me to stay
I keep coming back like a boomerang
Around, around, around, and back again
Around, around, around, and back again
Around, around, around, and back again
Around, around, around, and back again
