

Plain White T's, Girl From Pasadena

Everything is changing in the blink of an eye
And if you can't believe it, baby, neither can I
So excited I met you and now I can't get you off my mind
Full of butterflies when I'm about to see you
I'm addicted to the feeling that you're feeling it too
I'll be smiling the whole day on my way to you from Malibu

Just when I least expected it
Found love and I'm obsessed with it

Now I'm
Catching every green light
On my way to meet ya
The girl from Pasadena
And I'll stay
Forever if it's okay
I never wanna leave ya
The girl from Pasadena

Staying up 'til two, having a couple of drinks
And waking up with you is like my favorite thing
Every second together gets better and better, don't you think?
I just wanna lay here with you everyday
Kissing you and staring at your beautiful face
There's just something about it and I don't know how to look away

Just when I think I'm in too deep
You come and dive right in with me

Now I'm
Catching every green light
On my way to meet ya
The girl from Pasadena
And I'll stay
Forever if it's okay
I never wanna leave ya
The girl from Pasadena

I wanna be, wanna be, wanna be with ya
In Pasade-Pasade-Pasedena
Ooh
Ooh
Best view that I have ever seen
I found my California dream

Now I'm
Catching every green light
On my way to meet ya
The girl from Pasadena
And I'll stay
Forever if it's okay
I never wanna leave ya
The girl from Pasadena
