## Plain White T's, My Only One

Oh please don't go, I need you. I'll please you, not mislead you If you would be my only one. Together we move slowly. I'll never leave you lonely If you would be my only one. If you believe we were meant to be, Why'd you leave me alone? If you believe we were meant to be, Why'd you leave me alone? What hapened to forever? I'll try to make things better If you would be my only one. Now six days since we've spoken. I'll fix you when you're broken If you would be my only one. If you believe we were meant to be, Why'd you leave me alone? If you believe we were meant to be, Why'd you leave me alone? If you love me too, can I call you my only one? If you say no, I won't let go My only one. If you believe we were meant to be, Why'd you leave me alone? If you believe we were meant to be, Why'd you leave me alone?
