

Planetshakers, Closer To You

Verse1:

All of my life Ive searched for this
Its hard to explain this happiness
All of my searching left me poor
Now I have tasted, my spirits crying
Out for more

Chorus:

Everyday its hard to believe
The way You change whats inside of me
I wanna get closer to You
When I think that Ive let You down
Your open arms of love I have found
I wanna get closer to You

Verse2:

There was a time when I was lost
Caught in a world of selfish cares
But when You found me something changed
My eyes were opened, now I will never
Be the same
