

Plankeye, You Are For Me

when i'm away you never change
your love it stays when mine it fades
men will say what they say it doesn't change a single thing
for you are for me
another day it burned me up
words are cruel like children
the strangest thing I was born for this
as sparks they fly upward
but you are for me
I got the shakes for the lions outside are awake
it's feeding time and it's my life that is the storyline
the truth is strong and she holds me
she keeps me moving on when it gets overwhelming
your day will come hold on
