

Plants And Animals, Sea Shanty

Seven days we leave the shore
so I will learn to help you more
every day it multiplies

the tears fall down and down and down
from our eyes

somewhere off the coastline
we lost sight of ??
ran a ground in quarter water?
see ?? and ?? a ship

broke my heart

drinkin with my friends from back east
playing games when we should be asleep
so here's a toast to the new ones that we meet
