Play, Girl's Mind

When you hear us say yes, it sometimes means no
Well tell you to stop, when we want you to go
I know that were different, but were all the same
Its all in the games that we play
Now if you wanna please me dont take it so far
You think its gonna be easy but youre tryin to hard
Gotta know how to treat me, if you know what I mean
Its still the devil and angel Im caught between
You dont get it, dont see it, don't know what I want
Dont know how Im feelin you got me all wrong boy
So dont you forget it, youll never get inside
A girls mind
If you heard what Im sayin, youll be thinking it through
You wont do what you want, but what I want you to do
Will you figure me out or misunderstand
Cause I really want you to know who I am
If you only knew what I feel for you
If youd only see what you mean to me
If youd only hear how much I care
Youd know whats goin on inside my head
