

Plies, Can't Cry

My body feel numb
My heart beatin' fast
My mind still racin'
My nerves gettin' bad
My body language weak
My face expression sad
Been stripped of my emotions
Feels like I been stabbed
I don't know what I would do if my nigga passed
Emotional rollercoaster
When it's over I be glad
Can't do nothin' bout itself
It's startin to make me mad
I feel so helpless
My partner all I have
After dis all is over
Gotta put my heart into care
I feel so empty
How long will it last?
Ain't nothin' in the world that
Chu can do right now that can
Make me laugh
Feel like I'm cryin
But aint no tears she'd
(Chorus)
My partner just got shot
They say he might die
Niggas cold and slippin
He hit it from both sides
I'm cryin and turnin
But no tears won't come out my eyes
I just realize I don't know how to cry
My partner just got shot
I heard he might die
Niggas cold and slippin
He hit it from both sides
I'm cryin and turnin
But no tears won't come out my eyes
I just realize I don't know how to cry
My shirts stickin to me
Cause it's full of sweat
My eyes real heavy
It's hard to get some rest
I'm worryin myself crazy
I can feel it in my chest
I'm thinkin bout' my nigga
It's hard to catch my breathe
I know if I lose it now
Don't know what I'd do next
Momma told me pray more baby
And worry less
Ever since I got the news
I been emotional wreck
Don't know if it's all a dream
Or if it's just a test
He had tubes in his nose
Come runnin out his neck
Can't even look at my nigga
Can't stand to see him like that
I feel all his pain
I'm under so much stress
I jest hope he make it
Cause I know he blessed
(Chorus)

My partner just got shot
They say he might die
Niggas cold and slippin
He hit it from both sides
I'm cryin and turnin
But no tears won't come out my eyes
I just realize I don't know how to cry
My partner just got shot
I heard he might die
Niggas cold and slippin
He hit it from both sides
I'm cryin and turnin
But no tears won't come out my eyes
I just realize I don't know how to cry
