

# Plumb, Cure

Been there before  
Slowly drifting out to sea  
Away from the tide  
And the darkness surrounds me

I'm outta hope  
I'm outta strength this time

Chorus:  
I've never seen it  
No, I've never heard it  
I've never been it  
But I'm searching for it  
I've never seen it  
No, I've never heard it  
I've never been it  
But I'm searching for it

A breathe of air  
A cold that surrounds me  
But I want to know how  
To let it inside

It gives me peace  
It frees this pain I hide
