

Plus One, My Friend

We are standing at the crossroads
And now it's time
For you to go your way
And me to go mine
I will pray the Lord will keep you safe
Until the day
I see your face again, again

Chorus:
My Friend
We have been through so much
And you have been my Godsend
With your sure and steady love
My Friend
You know I will be there
If you ever need
Cause you've always been a Friend
To me

I may travel the world over
But one thing I know for sure
One day this road
Will lead me back 'round to your door
I will pray the Lord will keep you safe
Some bonds are just too
Strong to break
In the end, in the end

Chorus

Nothing will change the way I feel about you
Not the miles
Nor the years
Or the place this life takes me to

Chorus
