

# Plus One, This Is Christmas

They wished upon a star  
Three wise men traveled far to see  
A babe who was born to be King  
A dream in heavens dreams  
That made the prophets words complete  
Then the angels began to sing  
They looked to the sky  
Followed the light  
Loves greatest gift  
Had come to earth that night

Can you feel the spirit in the air  
Giving hope to people everywhere  
Celebrate our Saviour's here  
This is Christmas  
Halleluyah's echoing tonight  
Now everything will be alright  
Celebrate our Saviour's here  
This is Christmas

I know we've seen some times  
When joy has been so hard to find  
And life seems to take all in faith  
But we're dreaming heavens' dreams  
That we're finding hope that then our heart  
To believe that there's more than we see

We look to the sky  
Follow the light  
Love's greatest gift  
Has come again tonight

Can you feel the spirit in the air  
Giving hope to people everywhere  
Celebrate our Saviour's here  
This is Christmas  
Halleluyah's echoing tonight  
Now everything will be alright  
Celebrate our Saviour's here  
This is Christmas

There's no greater  
Gift than the life that you gave all  
Hatred  
Rearrange it  
Spread all the love  
Spread all the love

Can you feel the spirit in the air  
Giving hope to people everywhere  
Celebrate our Saviour's here  
This is Christmas  
Halleluyah's echoing tonight  
Now everything will be alright  
Celebrate our Saviour's here  
This is Christmas
