## Plus One, This Is Christmas

They wished upon a star
Three wise men traveled far to see
A babe who was born to be King
A dream in heavens dreams
That made the prophets words complete
Then the angels began to sing
They looked to the sky
Followed the light
Loves greatest gift
Had come to earth that night

Can you feel the spirit in the air Giving hope to people everywhere Celebrate our Saviour's here This is Christmas Halleluyah's echoing tonight Now everything will be alright Celebrate our Saviour's here This is Christmas

I know we've seen some times
When joy has been so hard to find
And life seems to take all in faith
But we're dreaming heavens' dreams
That we're finding hope that then our heart
To believe that there's more than we see

We look to the sky Follow the light Love's greatest gift Has come again tonight

Can you feel the spirit in the air Giving hope to people everywhere Celebrate our Saviour's here This is Christmas Halleluyah's echoing tonight Now everything will be alright Celebrate our Saviour's here This is Christmas

There's no greater
Gift than the life that you gave all
Hatred
Rearrange it
Spread all the love
Spread all the love

Can you feel the spirit in the air Giving hope to people everywhere Celebrate our Saviour's here This is Christmas Halleluyah's echoing tonight Now everything will be alright Celebrate our Saviour's here This is Christmas
