

Plus One, Whenever You Need Somebody (Duet

I know that life seems hard, cruel and unkind
A lonesome journey with questions in your mind
I hold your weary hand as you walk down the road
Remember you're never alone

Chorus

Whenever you need somebody
Whenever you want someone
To reach out and touch you
With a love that is strong
Whenever you need somebody
Whenever you want a friend
To chase away the clouds and help the sun shine again
I will be that friend

If I could have one wish, this I would pray
A heavenly miracle, your pain to drift away
So I'll keep on praying until that day comes
Remember (Remember) that I'll be the one

Chorus

I'll give you strength in times you're feelin' weak (Oh yeah)
I'll give hope and help you to believe

Chorus

I'm gonna be there
Gonna be your friend
I'm gonna be that friend
Right by your side
I'm gonna be that friend
