

Pods, Amanda

Amanda
You made me cry
You never cared
Now you should die
You left my heart
Like an open sore
I screamed your name
Cos I wanted more

Amanda
I didn't think
What was good for you
Ain't so good for me
You stupid bitch
You needed some
Got what you want
And now you're done

CHORUS:

You could throw my life on the wayside
Cover your lampshade with my pride
Never give a shit who you're fooling
Amanda this is your doing
Now you took what you wanted
Then you left and just forgot it
Bitch -- well, you're gonna regret it
Because I can't forget it yet

Amanda
You got no soul
You took my dreams
And now you know
You f**king whore
You told me lies
Amanda kiss your ass goodbye
