

# Podunk, I'll Never Be The Same

Oh I had to go, go and search my soul  
I took a road less traveled  
And here I am again wishin' I had a friend  
Now that my world is unraveled

You are the needle in my vein  
You are the sun, you are the rain  
Happiness and pain  
I'll never be the same

Oh I had to go, go and find my soul  
Down this road that i've traveled  
And here we are again  
Just like we were back when  
Our love sparkled and dazzled  
You are the needle in my vein  
You are the sun, you are the rain  
Happiness and pain  
I'll never be the same

Oh, I will never be the same
