

# Podunk, Swan Dive

On a long hot summer day  
I got on my bike and I rode away  
I was going to the swimming hole  
With a pack of smokes and my fishin' pole  
That was the day that i won't forget  
I stripped down and put out my cigarette  
I took a running jump swan dive  
The current pulled me to the other side

Run and jump swan dive

I pulled my hair from my face  
Imagined I was in a rapid race  
Well I took a breath and rode the fall down  
It beat me up and spent me all around  
I didn't know God could be found  
Under water with me pinned to the ground  
Still the water held me down...down

Run and jump swan dive, swan dive

On a long hot summer day  
I got on my bike and I rode away  
That was the day that I won't forget  
I got dressed and lit up a cigarette  
I rode home with the speed of light  
I jumped the ditch and threw down my bike  
I took a running jump swan dive  
And it felt so good just to be alive

I didn't know God could be found  
Still the water held me down  
I didn't know God could be found  
Still the water held me down  
Till I kicked it in the mouth, mouth, mouth

Run and jump swan dive  
I do a run and jump swan dive  
And it felt so good just to be alive  
I'm alive, I do a run and jump swan dive
