

Point Of Grace, Down

Marshall Hall, Sam Mizell, Matthew West, Brian White

Curiosity can get the best of me
As I try to conceive the inconceivable
All philosophy is escaping me
As I try to believe the unbelievable

I wanna believe
Without a single question
Oh Lord hear my confession

Chorus
I know, I know, I know, I know
Though I don't know everything
And I believe that I could never truly figure it out
'Cause You are so much more than me
Above me - beyond me
So far over my head but I still see You
And I am finally making sense of it all
As the wisdom of this fool begins to fall, fall, fall
Down

The story of my soul seems like a broken road
And how I'm standing here is unbelievable
Keep me lost in the mystery - down here on my knees
The only way that I can reach what seems unreachable

I wanna believe
Without a single question

Oh Lord hear my confession

Chorus
