

Point Of Grace, Faith, Hope Love

Words & music by ty lacy & kevin stokes

(chorus)

Faith, hope and love
Is more than enough when times get tough
Faith, hope and love
Will tunnel through what's in front of you
If you just trust in faith, hope and love

There's a lot of things we face
That seem to pull us down
There's a lot of tears and pain
That turn our world around
Seems the hammer always falls against us
At our weakest times

But I know a power that can heal
The wounds it leaves behind
It's a stone's throw away

From anything we may face

(repeat chorus)

There's a lot of hurt and sorrow
That can cloud the bluest skies
Still there's hope in tomorrow
If we just close our eyes
To every fear we must face
As we learn to embrace...
(repeat chorus)

You can trust
You can really, really trust
In faith, hope and love

Just a little faith will pave the road before you
To see you through
(repeat chorus) 3x
