

Point Of Grace, God Is With Us

God Is With Us

A rushing river sweeps around us
Just as hard and cold as night, it surrounds us
But we pass through the water to a safer shore
We're sheltered from the raging river's roar

Chorus

Though the night is long

And the river's strong

Still God is with us

We can stem the tide

Reach the other side

For God is with us

The river deepens, night grows darker

And the struggle seems to be getting harder

Today has troubles yesterday has never known

But we don't have to face them on our own

Chorus

And when we face the river's roll

He holds our hand and won't let go

Chorus
