

Point Of Grace, One More Broken Heart

I see people merely existing
I see vacant eyes full of pain
Lives broken and abused
Hiding hearts scarred and stained

CHORUS

As long as theres one more broken heart
One more crying soul, I'll go
And I will love them, Jesus
As long as theres one more needing you
One more I can show your love
As long as theres one more broken heart

Could it be that I could make a difference
If I care the way You care for me?
When they look into my eyes
Let it be Your eyes they see

CHORUS

Let me show them that You love them
Won't you help me bring them in?
Lord, I promise you again...

CHORUS

One more broken heart
One more broken heart
One more broken heart
