

Poison, Get Ya Some

good god what do i see

pretty little thing just

looking at me

ohhhh ohhhh sexy thing

i say walk that thing

right over here

just one thing i've got to make clear

ohhhh ohhhh sexy thing

pre-chorus

the way you move your body

it's driving me insane

don't you dare take me there

then shoot me down in flames

chorus

she's just like a loaded gun i just gotta get me some

girl's so hot you know is true

that woman gonna make a man of you

really ain't no mystery

i want you and you want me

ohhhh ohhhh sexy thing

i want your ten toes up and my ten toes down

two wet bodies going round and round

ohhhh ohhhh sexy thing

now it really ain't no secret i dont want this night to end

she said don't you worry Bret i brought along a friend

she's just like a loaded gun i just gotta get me some

girl's so hot you know is true

that woman gonna make a man of you

she make a dead man come

just got to get me some

(solo)

pre chorus

she's just like a loaded gun i just gotta get me some

girl's so hot you know is true

that woman gonna make a man of you

she's just like a loaded gun i just gotta get me some

she make a dead man come

i gotta get me some
