

Poison, Souls On Fire

It takes two to tango
In the heat of the night
You're gonna give it in
No matter how you fight
Hot nights, pretty women
and a bottle of gin
Fine floozy sitting pretty
in the city of sin
I'm knocking on your back door
baby let me in

Chorus:

I'll take you down
light your fuse baby
Set your soul on fire
Make your body sweat
soaking wet
In the midnight hour
Step closer my seniorita
It's so nice to meet ya
I see your eyes say no
but your flesh is weak
Well sweet salt shaker
and rattle my bones
One more inch I'm gonna drive it home
Hate to see a pretty little woman all alone

Chorus

She said are you gonna nibble baby
Or are you gonna take yourself a bite
You invite me closer honey
And I just might
I don't want money or a big black car
I just wanna know how I'm doing so far
So far I'm gonna do you just right
Chorus
