

Polarkreis 18, The Colour Of Snow

Comply me for science

I'm back in school

I believe in the children

I believe in you

You follow in my honour

I want you to know

The black is the colour

The Colour of snow

All I see, all I know

the world in me is black of snow

The snow is black of lies

The world won't realise

That we've been sad

The snow is black

The snow is black of lies

You have to believe

Compoundings for silence

You're back in school

To believe in the children

The leader is you

You trust into my allah

they want to know

The black is th colour

The colour of snow

It's the colour of

All I know, all I see

The children hope for the leader of me

The snow is black of lies

The won't realise

That we've been sad

The snow is black

The snow is black of lies

You have to believe

We have to believe it

You have to believe it

The snow is black of lies

The won't realise

That we've been sad

The snow is black

The snow is black of lies

You have to believe it
