

# Polopop, The Rain

When life is grand, time moves so fast  
Like clouds before a storm  
The chilling breeze, I wish it would last  
So cool but you make me feel so warm

The first drops begin to fall  
Under clouds we hold tight  
And like the rain, I begin to fall  
When I'm with you all feels so right

Such a simple night yet it all feels so new  
Just sitting in the park with you  
And though it seems like there's nothing to do  
I'm satisfied just being bored with you

We drink spiced rum under the moon  
Hold you in my arms all night long  
Within this forest God transcends from above  
As we dance to an imaginary song

And though it seems like there's nothing to do  
I'm satisfied just being bored with you  
Although you seem much too good to be true  
I think I'm falling in love with you
