

Popsie, Funky

Time to grab the microfone, oh yeah
Got a groove that hits you right to the bone
Let the rhythm rock this place, crazy
We are here to slap the bass in your face
'Cauce I want you to feel what you got is for real
You got power and energy

Now we're getting funky
You know that we got it
Funky, you'll se what it's like
Funky, you know that we got it
Funky, and everything is happening tonight

You know the rhythm takes me high, yeah yeah
Feel it everyday and everynight
I don't wanna let it go, oh no
Won't you come along and go with the flow

Now we're getting funky
You know that we got it
Funky, you'll se what it's like
Funky, you know that we got it
Funky, and everything is happening tonight

Let it loose and you will see
You got it deep inside
'Cauce you know it sets you free
The feeling that will blow your mind

Now we're getting funky
You know that we got it
Funky, you'll se what it's like
Funky, you know that we got it
Funky, and everything is happening tonight
