

# Popsie, Funky

Time to grab the microphone, oh yeah  
Got a groove that hits you right to the bone  
Let the rhythm rock this place, crazy  
We are here to slap the bass in your face  
'Cause I want you to feel what you got is for real  
You got power and energy

Now we're getting funky  
You know that we got it  
Funky, you'll see what it's like  
Funky, you know that we got it  
Funky, and everything is happening tonight

You know the rhythm takes me high, yeah yeah  
Feel it everyday and everynight  
I don't wanna let it go, oh no  
Won't you come along and go with the flow

Now we're getting funky  
You know that we got it  
Funky, you'll see what it's like  
Funky, you know that we got it  
Funky, and everything is happening tonight

Let it loose and you will see  
You got it deep inside  
'Cause you know it sets you free  
The feeling that will blow your mind

Now we're getting funky  
You know that we got it  
Funky, you'll see what it's like  
Funky, you know that we got it  
Funky, and everything is happening tonight
