

Popsie, Rough Enough

You know we got the stuff, are you rough enough
If you want some more, join our party as it flows

I maybe dress provocative, but don't judge me by my cover
Maybe I'm particular, but I need a perfect lover
Talk well or don't talk at all - show respect, we're five feet tall

(Chorus)
You know we got the stuff
Are you rough enough
Come on follow me baby
If you want some more
What are you waiting for
Join our party as it flows

You maybe think I'm easy, but without respect, no score
I like to move, I like to tease, if you watch me, you want more
Talk well or don't talk at all - show respect, we're five feet tall

(Chorus)
You know we got the stuff
Are you rough enough
Come on follow me baby
If you want some more
What are you waiting for
Join our party as it flows

We are what we express, we express what we feel
Are you rough enough?

(Chorus)
You know we got the stuff
Are you rough enough
Come on follow me baby
If you want some more
What are you waiting for
Join our party as it flows
