Porcupine Tree, Sever

[Written by Steven Wilson]

Telepath Carbon trapped under stone
Brother mother pale body is thrown
Only way I know to have fun
Fill up my blood, my veins, my lungs

ESP city - rainy and blue
Burn down this town, I give it to you
Aero shallow, photograph blind
Stage fright, black light, coma divine

No sense of time
Sever tomorrow
Exitless mind - ESP Sever tomorrow

School out invective, losing my voice
Film shredding on in multiple choice
America calls, I must go
Oprah saviour, I feel that low
