

# Porter Wagoner, Country Music Has Gone To Town

Oh they say that country music's gone to town  
Hold your flocks and put on the cap and gown  
What's the country boy to do what's this world a comin' to  
Oh they say that country music's gone to town

Grandpa used to take his dear old fiddle on his knee  
And Uncle Buck would git the banjo down  
The only music ever heard that could stop a mockin' bird  
Now they say that country music's gone to town  
Oh they say that country music's...  
( fiddle - el.banjo )  
One day I was walkin' through the canyons and the hills  
I came upon a cabin far away  
An old man with his banjo sat there a paddin' his big toe  
And as he played it I could hear his say  
Oh they say that country music's...
