## Porter Wagoner, I Know You're Married (But I Lov

You know I love you and I always will I know you're married but I love you still The day I met you my heart spoke to me it said to love you through eternity Now knowing that you were another's bride I vowed I'll always be close by your side

You know I love you and I always will I know you're married but I love you still [el.banjo - fiddle]

You broke a heart dear that would die for you I'd give this world dear to belong to you The game is over now and we've both lost a broken heart will have to pay the cost You know I love you and I always will I know you're married but I love you still I never would have made that sacred vow if I had only know what I know now There's room for only you in my heart so close together yet so far apart
