

Porter Wagoner, Seeing Her Only Reminded Me

Seeing you only reminded me of you

A girl walked by don't know her name caught my eye but I'm not to blame

Seeing you only reminded me of you

Carried me back to old memories carried me back to what used to be

Seeing you only reminded me of you

I went to my room oh how I cried found memories that I thought that id died

Seeing you only reminded me of you

(guitar)

I went to my room...

A girl walked by don't know her name...
