

Portugal. The Man, Created

I don't know how we were created
but I know we all die

go pick up all your tools and build a roof
I'll pick up all mine and build one too

I just do as I do
yeah, i do as i please
That's all I can do

listen to the cars just passing through
help out all those friends that helped you too

you just do as you do
yeah, you do as you please
That's all you can do (x2)

open up your arms and hold on to
everything you own that owns you too

and just let it all go
'cause we do as we please
and that's all we can do

that's all we can do
