

Povertyneck Hillbillies, Evil Twin

They're sayin I got crazy last night
Dancin' on the tables, swingin' from the lights
Making moves on every girl in the place
Well I swear that wasn't me
It's a case of mistaken identity
He's done it again
I can't show my face

That wasn't me
That got me in all this trouble I'm in
That wasn't me
But I know who it must have been
He's the black sheep of the family
And he's back in town again
That wasn't me
That was my evil twin

Its been this way all my life
He has the fun and I pay the price
And I'm the who ends up gettin' the blame
He looks just like me in that neon lights
But he's the one who got wild last night
Doin' his best to ruin my good name

That wasn't me
That got me in all this trouble I'm in
That wasn't me
But I know who it must have been
He's the black sheep of the family
And he's back in town again
That wasn't me
That was my evil twin

He took my money cause its all been spent
He drove my car cause the fenders bent
He hit me when I was asleep
Cause this moan in my heads sure killin' me

He's the black sheep of the family
And he's back in town again
That wasn't me
That was my evil twin
That wasn't me
That was my evil twin
