

# Powderfinger, My Kinda Scene

tell me where i'm supposed to begin  
an unhappy life working some kind of dead end job  
everything you thought you had  
has gone from worse to bad  
so lean to the side  
whisper it quiet  
the end is in sight  
working all night around the clock  
everything you thought you had  
has gone from worse to bad  
but it's not my kinda scene oh yeah  
footprints on the other side  
remind me where i've been oh yeah  
i'll watch from the other side  
tell me where i'm supposed to begin  
move out of sight and on to some  
life i'm dreaming of  
everything you thought you had  
has gone from worse to bad  
so i'll just wait and watch the wheels  
while you're turning back  
but it's not my kinda scene oh yeah  
footprints on the other side  
remind me where i've been oh yeah  
i'll watch from the other side  
ooh pulls/throws? me over  
and it drags me under  
ooh throws/pulls? me over  
and it drags me under  
tell me where i'm supposed to begin  
an unhappy life working oohh...  
all rite now ...etc  
but it's not my kinda scene oh yeah  
footprints on the other side  
reminds me where i've been oh yeah  
i'll watch from the other side  
all rite now... etc
