

# Powergod, No Brain No Pain

We came so close to a raging car

We tried so hard to unlock that door  
The people cannot understand  
We're standing proud until the end

We have got to be strong  
Bang your head all night long

No brain no pain  
No brain no pain  
No brain no pain  
No way

The road was long and the road was hard  
No strangers to danger we knew our part  
Bangin' maniacs all around  
Heavy metal is our sound

Alright metal maniacs  
Tell the world that you don't care  
When they say  
We ain't got no brain  
No brain no pain  
No way
