

# Prefab Sprout, Life's A Miracle

Say, what you doing' sleeping ? Hey half the day is gone  
Get a move on

Life's a miracle, let me tell you why  
If you look above you, there are no more stars  
Like this one in the sky

Life's a miracle, we gotta make the most  
Of the passing moment,  
Gotta do our best, there'll be time enough to rest

Gotta do our best, there'll be time enough to rest

Tell someone you them, there's always a way  
And if the dead could speak I know what they would say  
To you and me - don't waste another day

Show someone you love them don't be scared  
And if they fall into your arms you'll be surprised to find  
The weight that you can bear, because

Life's a miracle, we gotta do our best  
Before it's time to rest  
Life's a miracle - it's a Summer's day  
It's a passing moment  
Enjoy the sky, be a brilliant butterfly !

Tell someone you them, there's always a way  
And if the dead could speak I know what they would say  
To you and me - don't waste another day

Show someone you love them don't be scared  
And if they fall into your arms you'll be surprised to find  
The weight that you can bear, because

Life's a miracle  
Life's a miracle  
Life's a miracle
