

# Prefab Sprout, When You Get To Know Me Better

I can tell you'd like to love me,  
But you haven't known me long  
And you don't yet know the ways I'll find  
To hurt and do you wrong  
I'm a man with one small weakness,  
Any woman in a dress  
When you get to know me better  
You'll learn to love me less

Tonight if I'm your angel  
And I've flown before you wake  
Well it's just that I would hate to let you see my wings are fake  
Tonight if I'm your angel  
One that God forgot to bless  
When you get to know me better  
You'll learn to love me less

If I sing you, 'Love me Tender'  
In a way that you believe  
Remember that I'll mean it  
Till the moment that I leave

What I have to tell you,  
I know in time you'll guess  
When you get to know me better  
You'll learn to love me less  
When you get to know me better  
You'll learn to love me less
