

# President Fetch, Hitler-Jugend-Zirkus

A closed chapter of world history  
Schemes of rebuilding this world as a fourth reich failed  
So why do you advertise a painful failure  
That still causes agony for a lot even today?

Hitler-jugend-fashion  
The brand is a swastika

chorus: Hitler-Jugend-Zirkus  
Hitler-Jugend-Zirkus

The rooster is dead  
Now you stick together like a bunch of scared chickens  
But crowded feather-brains don't make intelligence  
Just wider foolishness  
If you're so low-minded  
That you have to give rise to insecurity  
To manifest yourselves  
Fight your inferiority complexes and not us

Hitler-jugend-fashion  
The brand is a swastika

chorus: 3X

More than 40 years ago since the episode  
Still maladjusted fanatics boost an event  
Current long before they saw day-light  
For the very first time  
High time for them to realize facts of the past  
How would you like your brother?  
With - or without his nails??  
Pumped with gas so much that he  
Actually floods in the air?!  
Or just in the shape of a corpse?  
Adolph's Prodigal Sons  
What Are They Waiting For?  
A resurrection? - Cannot work on their own  
Self-deception of third degree?  
You be sure he'll be waiting for you beyond  
Life....

Hitler-jugend-fashion  
The Brand is a swastika

But the price ain't fair  
Chickens in despair
