

# Prezioso, I Hear Voices

Oh come around away with me  
See coloured worlds and fantasy  
So lost in love we'll have some fun  
When flying off reality

Now all the worlds you're whispering  
Are going through eternity  
So if you want to stay with me  
Belief is what you need to feel

Baby bring me to you  
And now when this dream comes true  
Uuuuuuh

The loudness of the voice is clear  
Real nature of our destiny

Will bring us to the highest place  
So you can always find me there

And all those things you lost inside  
Will come and keep you still alive  
So baby please believe in me  
Cause faith is what you need to see  
I've got to be so close to you  
And now when this dream comes true

I hear voices es es  
I hear voices es es  
I hear voices es es
